Generix Launches Solochain Now – Packaged Solution to Deploy a Complete SaaS WMS in as Little as 16 weeks

Chicago, IL, March 17, 2025 – Today, at ProMat 2025, [Generix Group](#), a global business software company offering an expansive portfolio of SaaS solutions for supply chain, finance, commerce, and B2B integration, announces the launch of Generix Solochain Now, a packaged solution bringing together the core capabilities of Solochain WMS services and industry best-practices, and enabling companies to be up-and-running in as little as 16 weeks.

Generix Solochain is a proven SaaS WMS designed to meet every warehousing need of fast-growing companies. The new Solochain Now packaged solution delivers the best features and functionalities right out-of-the-box, incorporating built-in warehouse operations and industry best practices. The embedded configuration quickly adapts to new priorities without taxing IT resources. And the flexibility of Solochain Now allows companies to expand the functional scope beyond their core WMS needs with advanced capabilities such as advanced putaway, task interleaving, advanced picking, advanced cartonization, advanced waving and more.

The deployment, which can take as little as 16 weeks, is completed in three phases:
- Analysis to design the best solution for the customer's requirements
- Physical preparation of the site, testing and user training
- Operational go-live including customer care for support

"The new Solochain Now package is Generix's market response to customer demand for faster and more personalized delivery times across multiple channels, labor shortages, and economic volatility. With Solochain Now, fast-growing companies can quickly get a complete WMS while also planning for tomorrow," said Si-Mohamed Saïd, Chief Product & Marketing Officer, Generix. "Moving at the speed of the market is key to staying ahead of competition. The new Solochain Now package offers a faster time-to-value with the ultimate sophistication – predictability."

At the Generix ProMat 2025 booth #S3875, Generix will be doing live demonstrations of the advanced Solochain WMS showcasing its fully integrated suite of functionalities including inventory management, order processing, real-time tracking, and analytics.

Named in the 2024 Gartner Magic Quadrant™ for the sixth consecutive year, Generix Solochain WMS is a highly flexible WMS that meets the most simple to sophisticated warehousing needs. User-friendly and affordable, with Generix Solochain companies can get their teams trained in only a few hours and be up and running in as little as 16 weeks.

About Generix
